C.F.P.A.C.S. is affiliated with the **International Palm Society** and the **Palm and Cycad Societies of Florida.**

We are a non-profit, non-partisan organization whose goals are to be in operation solely and exclusively for scientific and educational purposes related to the study of palms and cycads, their propagation, culture, conservation, care, and development. We assist in the preservation of all palm and cycad species for future generations as well as promote and maintain public interest in palms and cycads.

Palms & Cycads?

- Like to know more about palms and cycads
- How to grow them successfully?
- What kinds will grow in your area?
- Wish you knew someone to ask about palms and cycads?
- Like to know where to obtain unusual palms and cycads?
- Like to know how to grow palms and cycads from seed?

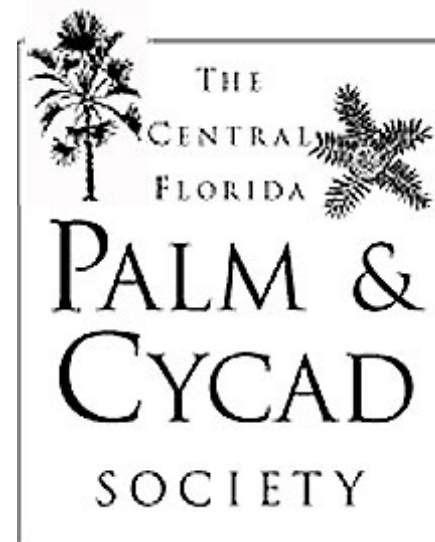

The **Central Florida Palm and Cycad Society (CFPACS)**

Can help you with information on growing and finding palms and cycads. We have members from all over the world who love to talk about these plants, and can help you with your specific growing conditions. If you would like to know more about joining the CFPACS and growing these interesting plants, feel free to view our Web-page at:

www.cfpacs.com

From our website you can ask questions at the message center or contact one of our board members in your area.
